NEGLIGENCE

The Cause of the Delay of Benjamin Hopkin's Pardon.

SECRETARY HAYARD SAID TO BE RESPONSIBLE FOR IT.

The Pardon at Last Arrives After Nearly Two Weeks' Delay—Two Other Similar Cases—Plan to Elect the President by Direct Vote of the People—Haine in Washington—Notes.

WASHINGTON, Jan. 5.—A good deal is likely to be heard in congress before long in regard to the delays to which pardons are subjected after the president has signed them.

December 21 President Cleveland granted a pardon to Benjamin Hopkin, the fidelity bank cashier, but it did not reach Columbus until two weeks later.

As soon as the application for pardon was signed by the president, the papers were sent to the department of justice, and from there sent to the state department, where a warrant for the release of the prisoner was made out. It was not ready until the day after Christmas for the president's signature. Then it was sent back to the state department for Secretary Bayard to countersign and seal.

That operation required so much time that it was last Thursday before the warrant was received at the department of justice, where it was immediately prepared for mail and sent to the warden of the penitentiary at Columbus. In the meantime the prisoner is reported as dying in the penitentiary, thirteen days after the president had granted the pardon.

A similar case of delay is complained of by Representative O'Farrell, of West Virginia. He has prepared a resolution which he will present in the house, asking the reason for such delays in the state department. One of his constituents, who was pardoned by the president on December 21, is still in jail.

Hopkin's Free Man.
COLUMBUS, O., Jan. 5.—Benjamin Hopkin's pardon arrived at last. He left for Cincinnati at 2:15 p. m. via Little Miami railroad.

Springer's Scheme.
WASHINGTON, Jan. 5.—The proposition of Congressman Springer to elect the president and vice president by direct vote of the people, each state to be entitled to as many votes as it has senators and representatives in congress, will probably receive the serious consideration of the house.

Springer has made an interesting computation of the vote in the recent election, based upon his system, which provides that the aggregate popular vote in each state shall be divided by the number of presidential votes to which each state is entitled, the quotient to be the ratio of the presidential vote, and the candidates having the largest fractions being entitled to the odd presidential votes. According to this plan Cleveland would have received 208 votes, Gen. Harrison 187, and Fisk and Streeter, Prohibition and Labor candidates respectively, 3 each, making in all 401.

Yellow Fever on Board the Yantic.
WASHINGTON, Jan. 5.—A brief dispatch from Admiral Luce has been received at the navy department to the effect that yellow fever had broken out on board the United States steamer Yantic, while in Port-au-Prince harbor, and that he had ordered the vessel away from that port. No details were given as to how many cases they were on board, nor for what port the Yantic had steamed.

Judge Claypool Come Forward.
WASHINGTON, Jan. 5.—The president has withdrawn the nomination of Leon T. Bailey to be United States district attorney for Indiana, and has sent to the senate the name of Judge Sol. Claypool in his stead. The change was not expected, and there is no reason announced for it except that the senate intended to "hang up" Bailey's nomination.

Dalzell's Christmas Gift.
WASHINGTON, Jan. 5.—Private Dalzell's "Christmas gift to my comrades," in which he asserts that 600,000 of them are each entitled to file certain claims against the government for services during the war, is pronounced a "bare-faced falsehood" by Second Auditor Day.

Haine in Washington.
WASHINGTON, Jan. 5.—James G. Blaine arrived in Washington Thursday evening. He said that he had come to the city to see about building a house near Dupont circle to rent, and that he should go from here to Indianapolis to call on Mr. Harrison.

Washington Notes.
The United States senate debated over the duty on cotton thread Thursday and refused to alter it.

Senator Hale advocates taking a census of the war veterans of the late rebellion, with a view to ascertaining the cost of a service pension for every Union soldier, and also to assist disabled veterans in finding comrades, and thus proving their claims for pensions.

Marks' Murderer Arraigned.
KOKOMO, Ind., Jan. 5.—The State vs. Thomas Ruse for murder in the first degree is occupying the circuit court. Last April Luse shot and killed Charles Marks, a married man, and engineer at the electric light works. Marks and Ella Luse, wife of the accused, met in the woods west of town, where they were followed by Ruse, who, finding them in a compromising situation, fired upon them, mortally wounding Marks and inflicting a serious wound upon Mrs. Ruse. Mrs. Ruse had a few days prior applied for a divorce. Ruse made his escape, and was captured last fall in Dakota.

Unanimously Condemned.
SALT LAKE, Utah, Jan. 5.—Much indignation is felt among all classes of citizens of Idaho at Cleveland's pardon of five Mormons. The dispatches from Washington said four were convicted of unlawful cohabitation and one of adultery. This is incorrect. The truth is all five were convicted of adultery. The president's pardon is unanimously and heartily condemned.

DESTRUCTIVE EARTHQUAKE

In Central America—Several Persons Killed and Many Injured.

SAN JUAN DEL SUR, Nicaragua, Jan. 5.—San Jose, Costa Rica, was the scene, on the night of December 20 and morning of December 21, of a series of earthquake shocks of great severity. The shocks are believed to have originated in the volcano of Poas, six leagues distant from the town. At Alajuela eight persons were killed and many were injured. The churches and principal buildings in the city suffered considerable damage. The inhabitants encamped in the squares and parks. No further shocks having occurred, the excitement is subsiding.

CHINESE EXCLUSION.

The President Sends Two Messages to the Senate Regarding It.

WASHINGTON, Jan. 5.—The president sent to the senate the following message:

"I desire to supplement the message yesterday sent to your honorable body in response to a senate executive resolution dated September 25, 1885, asking the transmission of certain communications and correspondence on the subject of the recent proposed convention in China, and the reported failure of the government of China to finally agree to the same, by adding to said response two telegrams I omitted therefrom which were sent in cypher by the secretary of state to our minister at Peking, and which may be considered by the senate relevant to the subjects of its inquiry."

"One of said dispatches is as follows:

"WASHINGTON, Sept. 4, 1888.

"Denby, Minister, Peking:

"Rejection of treaty is reported here. What information have you? BAYARD."

"Two replies were made by our minister to China, dated September 5 and September 6, 1888. They were heretofore and on September 7, 1888, sent to the senate and are printed in senate document No. 271."

"The other of said dispatches is as follows:

"WASHINGTON, Sept. 18, 1888.

"Denby, Minister, Peking:

"The bill has passed both houses of congress for total exclusion of Chinese and awaits president's approval. Public feeling on the Pacific coast excited in favor of it and situation is critical. Impress upon government of China necessity for instant decision in the interest of treaty relation and amity."

"The answer of our minister at Peking to this dispatch dated September 21, 1888, was yesterday sent to the senate with the message to which this is a supplement."

"The matters herein contained are now transmitted to the end that they may, in deemed pertinent, be added to the response already made to the senate resolution of inquiry, and with the intent that in any view of the subject the answer to said resolution may be full and complete."

"GROVER CLEVELAND,

"EXECUTIVE MANSION, Jan. 3, 1889."

The message to which the president referred contained a dispatch from the government of China, refusing to ratify the treaty unless given an opportunity to discuss with a view its shortening the period of exclusion, the stipulation fixing the restriction at twenty years.

HYPPOLITE'S NAVY.

He Buys an Old Vessel Lately Used for the Shipment of Molasses.

NEW YORK, Jan. 5.—There isn't much a Hayti to operate on, but Hyppolite, the bold general, has been at it again, and has just concluded the purchase of the steamship Madrid, and will do great things with her. Hyppolite has always been hankering for a navy, and so he bought one himself.

The Madrid arrived here from New Orleans December 26 with a cargo of molasses. Her next voyage is to be to Hayti, her cargo men and ammunition, her enemy, the power of Legitimé and every "long, low rakish craft" she chances to meet. In 1885 she was sold for old iron, but has since been refitted. The Madrid is a three-masted vessel, schooner rigged, 225 feet, upper works wood. She draws fourteen feet of water. Her engine are 400 horse power.

Ministers Preparing a Protest.

COLUMBUS, O., Jan. 5.—The Pastors' union of this city are preparing a memorial that will be forwarded to President-elect Harrison protesting against the inaugural ball and asking that he use his influence to have the custom set aside this year. The document will be taken to Indianapolis and laid before Gen. Harrison by a committee of clergymen, appointed by the union for the purpose. The discussion regarding the inaugural ball that has since taken a wide range, had its origin in a meeting of this union several weeks ago.

Shot With His Brother's Consent.

OWINGSVILLE, Ky., Jan. 5.—John Jones washed out his gun and inserted a small quantity of powder in it to flash out and dry it. He aimed the gun at his brother Basil and pulled the trigger with Basil's consent. They thought it wouldn't hurt much. The result, however, was a broken thigh for Basil. A female from the end of the railroad had remained in the gun after washing, was extracted from the thigh by a doctor three days afterward.

Feather-Weights Fight.

PHILADELPHIA, Jan. 5.—Frank Murphy of England, who claims to be the feather weight champion of the world, defeated Jimmy Hagim, of this city, in a ten round glove contest at the Stockton range, New Jersey, Thursday night. The fight was a good one, and although it was awarded to Murphy, the spectators seemed to be about evenly divided in their opinions.

The New Chesapeake & Ohio Line.

CINCINNATI, Jan. 5.—The river division of the Chesapeake & Ohio and the new Chesapeake & Ohio bridge have been turned over to President Ingalls by the construction company. The bridge is, of course, however, not entirely completed, but is so far completed as to permit of the passage of trains. Next Monday local passenger trains running as far as Ashland, Ky., will be put on.

Robbers Sentenced for Life.

AUGUSTA, Me., Jan. 5.—Stevens and Campbell, on trial in the municipal court for the robbery of Mr. Frost, of Whitcomb, were convicted Thursday and sentenced to state prison for life. Neither would take the witness stand.

THE REASON WHY

Windsor Favors Annexation With the United States.

IT WOULD SOON GIVE HER A POPULATION OF 100,000.

The Coming City Election Will, to a Certain Extent, Show the Annexation Sentiment of that Part of Ontario—One of the Candidates for Mayor Comes Out Boldly For Annexation.

WINDSOR, Ont., Jan. 5.—Aside from the local interest in the city election next Monday a good deal of significance is attached to the result of the contest. The vote will, to a certain extent, show the annexation sentiment of that part of Ontario.

Sol. White, a nominee for mayor of Windsor, was the first public man in southwestern Ontario to come out boldly for annexation. The question has hardly been made an issue openly as yet. It may not be now. Mr. White said at first that he wanted to make the fight on local issues, but his opponents forced the issue of annexation on him.

The first part of this is true, but Mr. White's supporters don't agree with him in the last. His most ardent advocates are snatched in the wool by Robert Barr, Sr., James McKeller and James McNeil, outspoken political unionists or annexationists and men who in the past have fought him with money and in every other way politically. Mr. White himself is a Conservative. Barr, McKeller and McNeil are only three of a good many reformers that have declared their intention of voting for him. They do not hesitate in saying they support Mr. White because he has declared for annexation. They are willing to bet even money against the field that he will be elected, and at this stage of the canvass his chances are decidedly the best.

He will get the vote of about every man in town who wants to see Canada and the United States one country. The old line Tories will desert him, but he will get the younger element, who admire him for his dogged perseverance in anything he undertakes.

If it should be Mayor White after election, he will be the first annexationist elected to office in Ontario.

The Windsor Clarion, political unionist, says: "Every political unionist in Windsor should vote for Sol. White for mayor. Mr. White is the first man in Canada with courage enough to declare in favor of the great cause, and political unionists should reward him for his manly stand and for his courage in championing a cause which is opposed mostly by his own political party. Political union will make Windsor a city of 100,000 inhabitants."

There are three other candidates for mayor, and the contest is very warm. Mr. White said Thursday night: "Yes, I am an annexationist, because I believe it is best for Canada from every standpoint, and especially beneficial for Windsor and the country on the border. One of two things must happen, and that soon. Either Canada must become an independent country or become annexed to the states. Our interests are identical with those of the United States, and our trade relations should be of the most free and unrestricted nature, but they can never be while we are a dependency of Great Britain. The home government really cares nothing for our interests, and a large part of our people are especially inimical to the home government. The French people, almost to a man, are against our present allegiance, and, in my mind, it is only a question of time when Canadians will have a voice in the election of a president of the United States. From all points of view annexation is the one thing to settle all the present difficulties."

A CHILD BURNED TO DEATH.

The Mother's Life Despaired of, and a Fireman Overcome By the Heat.

TERRE HAUTE, Ind., Jan. 5.—The residence of Mrs. William Gerald burned here yesterday. When the fire department arrived it was found that Mrs. Gerald, her son, aged four, and a daughter, aged six, were in the house.

By heroic efforts the firemen succeeded in carrying out all of the inmates. The boy was so frightfully burned that he soon died, and the mother is so badly injured that her life is despaired of. One of the firemen was overcome by heat, and fainted as he reached the outside of the building with the boy in his arms.

Street Car Driver Killed.

CHICAGO, Jan. 5.—Dan O'Connell, a driver on the Ogden Avenue street car line, met with a horrible death Thursday evening, at 8:30 o'clock. He was driving south and accidentally fell over the dash board and his body was ground almost to a shapeless mass. He died a few minutes afterward, while being conveyed to the hospital.

Victim of Young Fiends.

HOPKINSVILLE, Ky., Jan. 5.—Sallie Wall, the five-year-old colored girl who was so brutally mistreated by two boys at Salubria, in this county, died of her injuries Thursday night. The girl had been left at home with the two Wilson boys, who first stripped her, and, tying her to a bedpost, beat her in a most inhuman manner. They then threw her body into the fire, where her eyes were burned out, and she was otherwise fatally injured.

Taken From a Waterlogged Bark.

NEW YORK, Jan. 5.—The American bark, Bell Wooster, of Cape Cod, with sixty-two days out in ballast, has arrived here with Capt. Lonsen, his wife and nine seamen of the bark Kate Carnie, from Brunswick, Ga., for Rotterdam, with a cargo of yellow pine. The Carnie became waterlogged during a storm on December 15. On December 16 the Wooster sighted the bark and took the crew off.

Two Safes Blown Open.

LOGANSVILLE, Ind., Jan. 5.—The safes in two large flouring mills and a brewery were blown open Wednesday night, and papers and money secured. The work was evidently done by expert cracksmen.

JULIA MARLOWE

Creates a Sensation Among the Theater-Goers of Philadelphia.

PHILADELPHIA, Jan. 5.—The engagement of Julia Marlowe at the Broad Street theater, is now in its second.

A surprise at first, it has now developed into a genuine sensation. Several of the most prominent citizens, including members of the press and bar, gentlemen of the literary, social and artistic circles, united in a call upon her manager to prolong her stay. This request has led

Ariel Barney to cancel a week of her western tour, and made the announcement of her third week here. The largest house of the engagement was present Thursday night to witness her initial performance of "Rosalind." Miss Marlowe has eclipsed all her former efforts. She was called out after every act, and cheered at the conclusion of the play. Every morning paper will speak unequivocally in her approval.

DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
Proprietors.

SATURDAY EVENING, JAN. 5, 1889.

The present campaign for city officers has been one of the quietest and most uneventful on record. About the only contests Monday will be for Marshal and Clerk.

This statement is made that there are 460,000 native Kentuckians living in other States. Some few of these may have grown rich, but the vast majority of them could have done as well at home.

It is stated that Lexington and Fayette County have given nearly \$1,500,000 to railroad enterprises in hopes of securing cheap lumber, coal and transportation, and still they haven't got what they wanted.

In explaining the injurious effects of cigarette smoking, the Philadelphia Press says "the carbonic monoxide in the smoke deoxygenates the blood." That settles it. This deoxygenator of the blood must go.

One hundred Representatives and nineteen State Senators are to be chosen in Kentucky next August. At the same time a final vote will be taken on the constitutional convention question. The politicians will have plenty to interest them this year.

A FEATURE of unusual importance to every one in the South contemplating the purchase of any kind of machinery or machine tools, metal roofing, &c., whether for saw mills, flour mills, cotton mills, furnaces, ice factories, electric works, water works, shops, foundries, rolling mills, mines, or any other enterprise, has been added to the Manufacturers' Record, of Baltimore, the South's great industrial exponent. The editor of that paper invites any one, whether a subscriber or not, who desires to purchase any kind of machinery, whether for a new enterprise or an old one, to send him on a postal card or in a letter the particulars as to the character of machinery. If a new enterprise is to be started, mention its character and state whether any of the machinery needed has been bought or not. It matters not what the enterprise may be, whether a broom factory or a rolling mill, an electric plant or a saw mill, or anything else, it is only necessary to mention what it is and name the kind of machinery. The Manufacturers' Record will make these wants known to the leading manufacturers of the country, free of any cost, thus securing from them full information as to price, &c. This wide publicity and the competitive bids that it secures, will enable every one wanting machinery to purchase it to the very best advantage, getting the best at the lowest cost. Information as to any new enterprise to be started, whether manufacturing, mining or railroad, or the enlargement of any now in existence, is desired by the Manufacturers' Record, Baltimore, Md.

Stock, Field and Farm.

The wheat crop of Dakota in 1880 was less than 1,000 bushels. In 1880 it was about 3,000,000 bushels. In 1885 it reached 38,000,000 and in 1887, 52,000,000. The crop of 1888 set at 38,500,000 bushels.

The Australian Government is building a fence of wire netting 8,000 miles long, to divide New South Wales and Queensland, in order to keep the jack-rabbits out of the latter country. Australia is paying not less than \$125,000 per year to keep the pest down in what are known as crown lands. The offer is still kept up of \$100,000 to any man who will produce something that will exterminate the pests.

The tobacco crop of the United States averages about 500,000,000 pounds per year. That of Germany has averaged 90,000,000 pounds for the last fifteen years, enough to affect our export of tobacco to that country to some extent. The export of leaf tobacco is considerably more than half of our crop, and of this more than eighty per cent. goes to Europe; and in Europe, Germany, in spite of her large production, takes more than any other country. England comes next, and then Italy, France and Spain in the order of mention.—American Agriculturalist.

The production of oats in the United States shows a great increase. In the last eight years the average crop has been 549,000,000 bushels, against an average of 314,000,000 for the ten years preceding. This increase is owing to the requirements of the increased number of horses, to the substitution of oats for corn in the South for feeding horses, and to the more general use of oatmeal as food for man. The area of the oat fields has also increased proportionately more than that of wheat and corn, and the price shows a less proportionate decline.—American Agriculturalist.

Another Lover Left.

Fleming County girls must be a sickle-hearted set. A few weeks ago the BULLETIN spoke of the case of Mr. C. M. C. Saunders, who had made all his arrangements to get married, but learned on the morning of the day set for the nuptials that his girl had eloped with another fellow the night before.

A somewhat similar event took place this week. Miss Kate Freeman, aged twenty-five, of Hillsboro, was engaged to marry a Mr. Steele, Thursday. Wednesday evening she skipped out with John M. Hurley, of Bath, and the couple were married at Flemingsburg that night. Steele has gone West.

Personal.

Mr. C. B. Williams, of Lexington, was in town yesterday on railroad business.

Mr. Will January, of Chicago, is here on a visit to relatives.

Miss Maria Norman, of Lexington, is visiting Miss Mary Hanley, of Front street.

Miss Jennie Frazer returned last evening from a visit to Miss Lucie Turner, of Paris.

Miss Margaret Flynn, of Lexington, is the guest of Miss Mary O'Donnell, of Market street.

Mr. Wm. Fitzgerald, of Lexington, is spending a few days with the family of Jailer Dennis Fitzgerald.

Miss Stella Walker, who has been the guest of Miss Mattie Evans, went to Mt. Olivet yesterday to visit the family of her brother-in-law, who is connected with the new bank at that place.

Dangerous Vegetables.

There is light at last on a subject of vast importance to all vegetable eaters. It seems that a green vegetable is as surely injurious to health as green fruit. But cooking will generally render a fruit harmless, while it will not do so for a vegetable. A recent case of wholesale poisoning of French soldiers was traced to the solanine in unripe potatoes. This is a poisonous more often than is supposed. If dug before maturity the tuber is by no means safe. But far worse is it to use a potato for food that has, after being dug, been exposed to the light for any length of time. They should be stored in the dark as soon as dug. If bitter they should never be eaten. The more discoveries are made as to our health and to our sanitary needs the less we seem near to a true knowledge of the best conditions for sustaining health and life.—St. Louis Globe-Democrat.

An Old Fashioned Gun.

A curious Tibetan musket or matchlock has found its way from Sikkim, where it was picked up after a battle, to Calcutta. It is described in the Indian papers as of primitive design, although comparatively new. It is a smooth bore muzzle loader, mounted on a long, narrow stock. The barrel is fitted with a double pronged rest, the points of which are sharply shod, so that the rest itself may either be placed firmly in the ground or used, if necessary, as a bayonet. The contrivance is ingenious, and the weapon is not altogether to be despised. Attached to it is a belt, on which are strung six hollow wooden plugs for powder charges and a small horn for priming powder.—Philadelphia Ledger.

Chinese Ghost Lore.

In various parts of China there is a belief that the souls of very atrocious criminals who have either been executed or died in prison are sent back from hades by Yemlo, the judge there, to undergo a further term of imprisonment, one death not being enough to expiate their crimes. When the second term of imprisonment is adjudged to have expired the district magistrate beseeches the tutelary deity of the city to accompany him to the prison in order to acquit the ghost with his release. The order is supposed to reach the imprisoned by burning it, a ceremony which is solemnly carried out in the jail.—Cincinnati Enquirer.

How the Farmer is Plucked.

A farmer at Hood River shipped sixty sacks of potatoes weighing about 100 pounds each to this city a few days ago. The potatoes sold here for forty cents per 100 pounds, the top price. The freight was thirty cents, the top, the drayage two cents, and commission two cents, which, with six cents for the sacks, consumed the entire proceeds of the sale, leaving the farmer not a cent for his seed, the labor of ploughing, cultivating, harvesting and shipping, which, as any one knows who has hoed, dug and picked up potatoes, is no trifling matter.—Portland Oregonian.

Clothing from His Own Hair.

There is a farmer living in Fulton county who has the most useful head of hair on record. His hair is more like the wool of a sheep than anything else. It is soft and long and curls but little. It is about the color of the wool on the back of a brown sheep, and is as thick as the wool of a sheep. The gentleman prizes his peculiar hair very highly, and he also makes good use of it, for he has several pairs of socks and a nice warm pair of gloves made from hair cut from his own head.—Atlanta Journal.

Couldn't Compete with Bridget.
Lady—Show me your cloaks, please.
Clerk—Here are some elegant ones. Only \$85.
Lady—I am not a hired girl, sir.
Clerk—Beg pardon, ma'am. Here is a line at \$25 that I can recommend.—Chicago Tribune.

Charles H. Ball, of New York, is said to be the possessor of a double jointed monkey, and among his accomplishments is the gift of speech. Not only can he say "papa," "mamma," and "cuckoo," as well as any parrot, but he will, when hungry, say "Jack wants his grub."

A paste suitable to preserve the gloss of patent leather and prevent cracking is made of wax, with a little olive oil, and oil of turpentine, mixed when warm, to be of the consistency of thick paste when cooled.

The phonograph shows that a man's voice has not the same sound to himself that it has to others, thus finally explaining why some people persist in singing.

1889? Another year of time crossed into the boundless claim of eternity?

This is generally the time set apart for the turning of the new leaves, and the turning over of new leaves, &c. If the leaves turned over are for the better well and good. But in places out of ten they are so spotted and blackened that they can well be called a black list of life.

We are glad to notice that one of the New Year's customs is on the decline, and that is the making of New Year's calls. It is a custom that has wrought a deal of ruin in this country. A young man in making calls has not the moral courage to refuse a glass of wine from the hands of a fair hostess, or handsome friend, (false friend), and so he takes the first and worst of chances are down hill and easily taken. There has been many a young man ruined by the curse of New Year's calls. In fact, we can recall to mind a party of young men who started on calls a few years since and wound up in a gloriously drunk. Some of those young men had never tasted strong drink before, but they have made up for lost time since, and the self-same people who set out with the resolution to make a terrible cry against saloons. Now which is the worst? Draw your own conclusions. There is more temptation in a beautiful woman handing around wine (just to taste, you know), than in a round up in a gloriously drunk. A STEP FORWARD.

Public Meeting Called to Organize the Maysville Manufacturing Association.

The move to organize the Maysville Manufacturing Association is meeting with very gratifying encouragement.

A number of the prominent and most active business men are interesting themselves in the matter. They met last evening at the office of County Clerk Ball, to take preliminary steps to perfect the organization of the association.

There were present at this meeting Messrs. M. C. Russell, E. A. Robinson, Geo. T. Wood, W. H. Cox, W. B. Mathews, J. James Wood, Thomas A. Davis, W. W. Ball, A. M. J. Cochran, J. I. Saulsbury and W. LaRue Thomas. Mr. J. James Wood presided and Mr. Ball acted as Secretary. The reports were very encouraging, and many of those present felt confident that by proper and determined effort, subscriptions for 2,000 shares of the stock could soon be obtained. The association can be organized when 1,000 shares are taken. An hour or so was spent in a discussion of the matter. It was decided, finally, to call a public meeting, to perfect the organization. This meeting will be held at the court house next Friday night. A call signed by those present last night will be issued, inviting all interested in the welfare of the city to attend the meeting.

This is a step in the right direction, and the business men and all other citizens of Maysville should not fail to be present Friday night. They are earnestly invited.

The charter of the association was published in the BULLETIN a few days ago. The association is to be conducted somewhat on the order of the building associations, and the citizens will only take hold at once it can be made of great benefit to Maysville.

Let all attend the meeting next Friday night.

DAVID KEEFER DEAD.

Sudden Death of a Former Citizen of Maysville at His Home in Covington.

A telegram from Covington this morning brought the sad news that Mr. David Keefe died suddenly at that place some time last night. It is supposed that heart disease was the cause.

Mr. Keefe formerly resided in Maysville. For years he was interested in the milling business here as a member of the firm of D. E. Roberts & Co., former proprietors of the Limestone Mills. Afterwards he removed to Covington where he purchased and operated a flour mill up to the time of his death.

The deceased was about sixty-five years of age, and was well and favorably known throughout this city and county. He leaves two daughters—Mrs. C. C. Dobyns and Mrs. James F. Robinson, both residents of this city—and two sons.

"Week of Prayer."

The week of prayer will be observed by the churches of this city. Beginning next Monday, union services will be held each evening at 7 o'clock at some one of the various places of worship—Monday evening at Central Presbyterian Church, Tuesday at the First Presbyterian Church, Wednesday at the M. E. Church, Thursday at court house, Friday at Christian Church, and Saturday at M. E. Church, South.

The subject for Monday evening is Thanksgiving and Confession for the individual, the family, the church, the community, and the nation. Thanksgiving. I. Thessalonians, 5: 18; Psalm 100; Psalm 103; Nehemiah, 12: 43; Confession;—Hosea, 14 1-2; I. John 1: 8-9; Psalm 32; I. II. Samuel, 12: 13.

The many friends of Mr. J. N. Kehoe, of this city, who a few months ago was admitted to the bar at Louisville, will be pleased to learn of his good luck. He was appointed a few days ago assistant attorney of the L. and N. Railroad, with headquarters at Evansville, Ind. Mr. Kehoe is a young gentleman of many noble qualities and is sure to make his mark in the profession he has chosen.

PREACHING at M. E. Church, South, to-morrow at usual hours. Young people's meeting for men at 3 p. m., and for ladies at 4 p. m. All are invited to these services.

An adjourned meeting of the City Council will be held next Thursday night, when the retiring members will step down and out, and the new will enter on their duties.

WESLEY SUTTERFIELD, one of the wealthiest men in Adams County, died of heart disease. He was worth about \$100,000, accumulated all his wealth himself, and could neither read nor write.

The alarm of fire yesterday afternoon was caused by a small blaze in a wash house in rear of Mrs. M. F. Adamson's home on West Second street. The flames caught from a defective flue, and were put out with a few buckets of water before the fire department could get to work.

The engine and hazz gear of the incoming Kentucky Central passenger train yesterday morning jumped the track just west of Short street. It took about twenty minutes to get them back on the rails. The train was running slow at the time, which likely prevented quite a serious accident.

MR. AND MRS. J. E. FARLONG, of Washington, entertained their young friends New Year's night. The event was in honor of Miss Ada Browning, of Mt. Gilead, a sister of Mrs. Farlong. Dancing was the pastime of the evening and at midnight an elegant lunch was served. All present spent a delightful time.

CHRISTIAN CHURCH.—The pastor will preach to-morrow morning and evening at the usual hours. The sermon in the morning will be that suggested by the Evangelical Alliance for the first Sunday of the "Week of Prayer." Young people's meeting at 6:15 p. m., in the chapel. Sunday school at 9:30 a. m. All cordially invited.

THROUGH trains over the Maysville and Big Sandy may not be put on till next Tuesday. While the time-card will go into effect Monday, it is thought that the engineers, conductors, &c., will not be able to acquaint themselves with the schedule well enough to start the trains that day. The first train will, most likely, not leave here until Tuesday morning.

MAYSVILLE "waitahs" are getting up a "rep." Just read the following from the Manchester Signal's account of a recent society event at that place: "Another hour was spent in discussing the delicious menu, a feast for the gods, arranged in Mrs. Brittingham's most tempting way, and served by three of Maysville's most expert waiters, imported especially for the occasion."

Dr. T. C. MARRIS, formerly of this city, and Dr. Clement, prison physicians at the Ohio penitentiary, last Wednesday, performed the operation of tapping Ben F. Hopkins, the ex-bunker of Cincinnati. Seventeen quarts of water were taken from the abdominal cavity. This is the third operation within seven weeks, during which time fifty-four quarts of water, or the equivalent of about one hundred and eight pounds, have been taken from him. Hopkins stood the operation very well.

The Emerald Club gave their annual New Year's hop at Neptune Hall Thursday evening. There was a large gathering of invited guests from the county and elsewhere. Fifty-two couples took part in the grand march, and when at two o'clock the programme was wound up the Maysville Orchestra sent the gay party away with the sweet strains of "Home, Sweet Home" ringing in their ears. The event was a pleasant one, and was enjoyed by all present.

for those who have waited. There remains just twenty days in which I am going to sell, at retail, the stock of merchandize belonging to the estate of F. HECHINGER, It is true the enormous sale we had has greatly reduced and broken the stock. However the goods that remain on hand are ALL first-class in quality and style, and those that can be suited---AND IT WILL BE WELL WORTH YOUR WHILE TO TRY---can secure good CLOTHING, etc., at less than half of actual cost. PREPARATIONS

Being Made to Receive the German Emperor in Belgium.

EVERY PRECAUTION BEING TAKEN TO PREVENT TROUBLE.

The Kaiser's Dignity Likely to Receive a Shock When He Visits London—Many Persons Frozen to Death in Southern Russia—Comments on the Morier Affair. Foreign Notes.

LONDON, Jan. 5.—Notwithstanding rumors to the contrary there is little anticipation of trouble in connection with the coming visit of the emperor of Germany to Belgium. The Socialists will probably not make any demonstration, as they are more theoretical than practical in Belgium. Every precaution has, however, and will be taken. Secret agents from Berlin have for some time been in communication with the Brussels police, who are extremely jealous in their endeavors to prepare for the imperial visit.

The Liberals' press, so far as they dare, have given some cutting comments upon the latter's officiousness, and the result will hardly be to increase German popularity among the Belgians. The higher class of Belgians are in language and social affiliation in sympathy with France, and the proletariat are, it might be said, modified Republicans. At present there are large orders placed in Belgium workshops for arms and machinery for France. Should there be a disturbance in trade a revolution might be created, and the mechanics of Ghent and Liege have shown more than once what a power they are. The emperor's visit will undoubtedly pass off quietly, but it may lack ostentation on the part of the people who incline towards France.

The emperor has a supreme and almost touching faith in the dignity that surrounds his royalty, but it is bound to receive a shock during his visit to England. Accustomed from childhood to be surrounded by disciplined servants and to be subject of adulation, the free and easy greetings of a London crowd may prove a strange revelation to him.

The impression in England that he has treated his mother with a brutal lack of feeling, and that mother being a daughter of the queen, has made him very unpopular and he is likely to receive more than one reminder of it before he leaves the metropolis. A London mob does not pick and choose its language and the chances are that William may hear some very homely and disagreeable remarks that will make his ears tingle and tend to confirm his theories that too much liberty is a dangerous thing.

The police may find it difficult to prevent the populace from giving a practical manifestation of their dislike to the kaiser. They look forward to his coming with dread and will feel great relief when the visit is safely over.

The Morier Affair.

LONDON, Jan. 5.—The Times, commenting on the Morier affair, says: "We may take the liberty of pointing out to Prince Bismarck and his more youthful imitators that the easy movement of international intercourse, even between states which have their main interests in common, is not facilitated by the adoption of a tone of barrack room manners. We are at this moment allied with Germany on the coast of Africa, and events may bring about, for common objects, an alliance with her on other grounds. Prince Bismarck knows very well that England, with her naval supremacy and her purse, is not a quantity negligible. We wish, as we have always wished, to preserve and strengthen our good understanding with Germany, which has now so long subsisted, but we must beg the German chancellor, and those who take their tone from him, to treat English public men as English gentlemen, and to curb the extravagance of invective and imputation, which rages in the semi-official proportion of the government."

The Daily Telegraph after expressing regret that Count Herbert Bismarck is unable to give a better answer to Sir R. D. Morier, says: "If there is no way of repudiating calumnies against our ambassadors which pretend to be official, a way ought to be found or made to defend them from the kind of journalism represented by the Cologne Gazette."

The Daily News says: "Perhaps Sir R. D. Morier's letter displays rather more irritation than it is good for a diplomatist to show. On the other hand, Count Herbert's reply lacks appreciation of Morier's position and extreme provocation. It is a pity that a rumor so absurd should be allowed to bring into disrepute the prominence of the anti-English feeling that appears to exist in certain official quarters in Germany."

Sir R. D. Morier, British ambassador to Russia, has sent to Count Herbert Bismarck the unfortunate Marshal Bazaine's letter, denying that Morier ever gave him any information regarding the movement of German troops in the Franco-German war, and has caused Count Bismarck to have the monstrous calumny contradicted in the semi-official papers in which it appeared. Herbert Bismarck calls it an astonishing demand and has refused. Wherefore Morier publishes the correspondence in self-vindication. Bismarck is censured by the English press, and by Germans outside the government organs, and it may lead to serious complications.

Boulanger Protests His Fidelity.

PARIS, Jan. 5.—Gen. Boulanger, in an address to the electors of the department of the Seine, repudiates the assertion that he aims at a dictatorship, and protests his fidelity to the republic. He asserts that France is tired of being made the victim of base competitions, and only demands right and justice. Continuing, he said:

"Those members of parliament who did their utmost to make me ineligible were beside themselves at the idea of seeing me elected. My sword caused them anxiety and they deprived me of it. But now they are more anxious than they were when I wore the sword. Really it is not me they fear, but universal suffrage, whose repeated judgments testify to the disgust which their incapacity, base intrigues, and fanciful discussions inspired."

"In order to avoid being compelled to accuse themselves, they charge me with the most improbable dictatorial projects. When a minister I was overthrown under the pretext that I was the personification of war. Now I am opposed as the personification of a dictatorship. If I could ever have entertained the idea of playing dictator, it would

have been when, as a minister of war, I had the whole army in my own hands. There has been nothing in my conduct to justify such a suspicion."

"I accepted the sympathies of all without dreaming of stealing popularity from any. There is nothing dictatorial in a program that demands constitutional revision by the most democratic system—by a constitutional assembly. The Republican leaders had confidence in my republicanism when they opened to me the doors of the cabinet. I challenge the Republicans to cite a single act or profession in which I have not plainly supported the republic. But I desire, as France desires, something besides a combination of ambitions and greed. France thirsts for justice, for equity, for disinterestedness."

Perished in the Snow.

ST. PETERSBURG, Jan. 5.—A terrible disaster has happened at Sabuntsevo, near Tiflis, in Georgia. THE BURLINGTON STRIKE.

Both Sides Admit That It Is Practically Ended.

CHICAGO, Jan. 5.—The great Burlington strike was admitted by both sides Thursday night to be practically settled. The conference between the officials and the Brotherhood committee of nine resulted in an amicable agreement on nearly all the points at issue.

The Times says: "It is understood that by the terms of the agreement the old Burlington engineers will be placed again upon a square footing, instead of being blacklisted by nearly all the roads in the country. The Burlington itself will set the example by giving the strikers employment in preference to others whenever vacancies occur, and by burying completely out of sight the hatchet which was dug ten months ago. Vice President Stone and Chairman Cavenier declined to give any of the details of the meeting or the nature of the conclusions."

Arranging to Spar Fifteen Rounds.

BOSTON, Jan. 5.—Joe Lannon and George Godfrey met at the office of a sporting paper and signed an agreement to spar fifteen rounds February 4 with regulation gloves for a \$1,000 purse, winner to take all. He tried first a razor, then ate the quillsilver from an old looking glass, and lastly tried to hang himself with a sheet. Williams is under indictment for writing a White Cap letter to Jacob Layman. He has had one trial, in which the jury disagreed. Bond was offered, but he refused, saying that he would only leave the jail in his coffin.
